

Templates Spare part Labels-BMW

NiceLabel 2017 "PowerForms" is required as full version or Runtime.
The license key is delivered as a soft license or dongle.
The templates are in a self-extracting archive, just the
Run "BMW Spare Part Labels.exe" and unpack it in drive c:

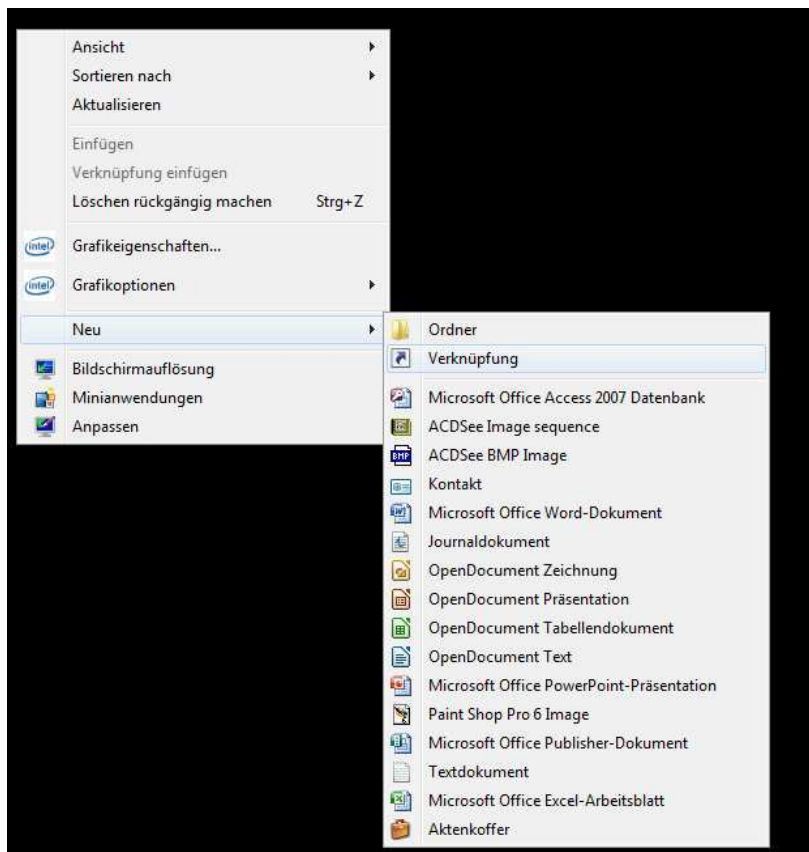

The templates must be in the path "C:\BMW Spare Part Labels" !!

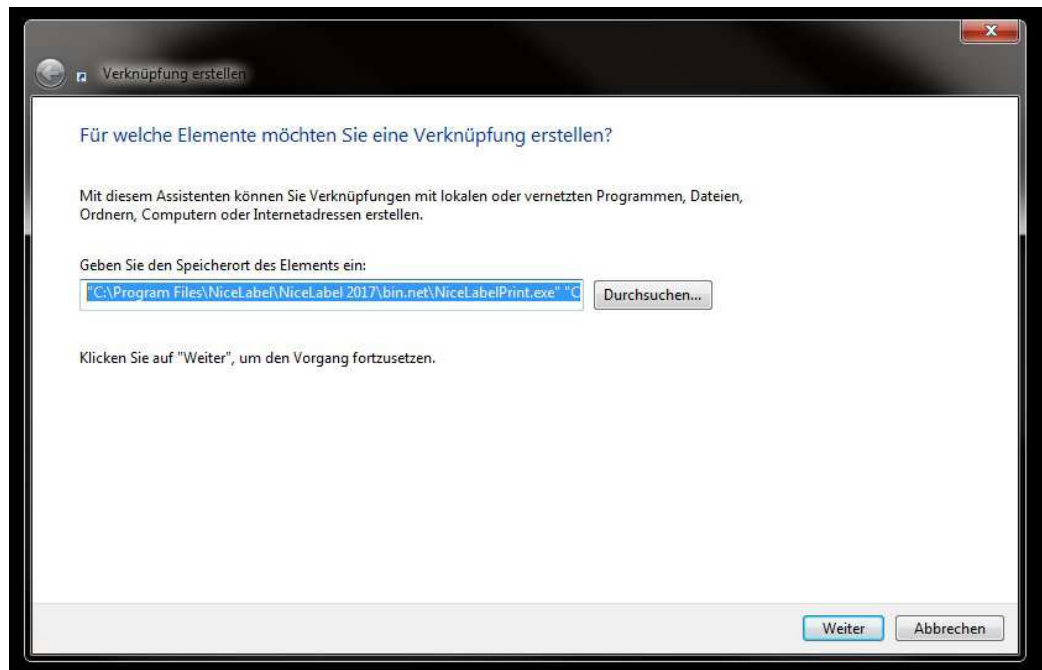

Create Desktop-Button

NiceLabel PowerForms 2017 must already be installed.

1. Create a new shortcut

2. Copy the text from the file "C: \ BMW Part Labels \ Desktop \ button.txt" in the input field. ("Speicherort des Elements")

3. Confirm with "weiter".

4. as the link name use "BMW Partlabel"

Now you have the right start button on the desktop.
The further menu is self-explanatory.

Windowsdriver

Download the window driver for your printer via the COT / BMW link
or use the existing driver.

For the laser printers please use the window drivers from the manufacturer.

Attention!

All settings for the printer must be made in the driver.
(Speed, density, left / right / up / down shifts, etc.)
